STAR WARS

EPISODE I

Many years before Luke Skywalker duels Darth Vader, the greedy Trade Federation tries to take over the planet Naboo. On Tatooine, a brave boy named Anakin Skywalker helps the Jedi save Queen Amidala and her planet. Race along with Anakin as he takes part in an action-packed Podrace. Then join the Jedi in a showdown with the dangerous Darth Maul.

THE SAGA BEGINS

ANAKIN SKYWALKER

Anakin Skywalker is a nine-year-old slave on the desert planet of Tatooine. Anakin first meets Qui-Gon Jinn when Queen Amidala's spacecraft lands for repairs on Tatooine. He fast becomes friends with R2-D2, Padmé and Jar Jar Binks. Anakin possesses a maturity beyond his years, and is always eager to help those in need.

Though he appears to be a normal boy, Anakin is very special and gifted. He is very strong with the Force, but does not yet know his potential. Owned by a junk dealer, Anakin is never far from a set of tools and has recently built a custom Podracer. With his natural reflexes and an eye for excitement, Anakin is the only human in Mos Espa capable of flying a Podracer. The combination of being a caring boy and having untapped talents offer possibilities that stretch far beyond the limits of slavery.

QUI-GON JINN

Qui-Gon Jinn is a noble, wise, and powerful Jedi Master. He refuses to let anything, even if it often leads him to follow his own path. Qui-Gon shares his knowledge with his handstrong apprentice, Obi-Wan Kenobi. The two Jedi are sent to free Naboo from the clutches of the evil Trade Federation.

OBI-WAN KENOBI

Obi-Wan Kenobi is the apprentice of Jedi Master Qui-Gon Jinn. Together the two Jedi are a powerful force to be reckoned with. Obi-Wan greatly admires Qui-Gon, but is often frustrated by the decisions he makes, including Qui-Gon's tendency to take other liberties under his wing. Obi-Wan has almost completed his training, and shows the makings of a great Jedi Knight.

PADMÉ NABERRIE

Padmé serves Queen Amidala as one of her trusted handmaidens. Padmé loyally leads the police and serves at her side. After landing on Tatooine, Padmé accompanies Qui-Gon Jinn to Mos Espa in search of a way for their starstruck ship. In Mos Espa, she meets Anakin Skywalker and comes to care for the boy over the course of their adventures. Strong-willed and determined, Padmé is a key figure in the quest to save Naboo.

JAR JAR BINKS

Jar Jar is from a group of amphibious beings called Gungans who live in the vast underwater city of Otoh Gunga. However, Jar Jar has been banished from his home. Jar Jar is kind and helpful, but also very clumsy. He often finds himself in danger, but sometimes this works to his advantage. Jar Jar's honesty and knowledge of his homeworld come in handy when he is saved by Qui-Gon Jinn during the Trade Federation invasion of Naboo.

DARTH MAUL

Darth Maul is a Sith Lord and the loyal apprentice of Darth Sidious. Filled with the joy of the dark side and armed with a double-bladed lightsaber, Darth Maul can destroy anything in his path. With black, red, and yellow eyes, Darth Maul presents a terrifying appearance. In a spectacular showdown, lightsabers clash as Darth Maul battles Qui-Gon Jinn and Obi-Wan Kenobi.

7141 NABOO FIGHTER

High above the planet, Queen Amidala's Naboo fighter sets out in an attempt to destroy the Trade Federation's droid control ship, the *Dagobah*. Only Amidala and her Jedi bodyguards can save the queen's ship.

GUNGAN SUB 7161

Jar Jar Binks guides Qui-Gon Jinn and Obi-Wan Kenobi through the underwater world of the Gungans. For their journey to the city of Theed, they borrow a Gungan sub. Will Jar Jar and the Jedi become a snack for a sea creature, or will the sub's spinning propeller speed them out of danger?

7121 NABOO SWAMP

The Naboo swamp is filled with strange creatures, including Jar Jar Binks. Will Jar Jar lead Qui-Gon Jinn out of the sticky swamp?

7101

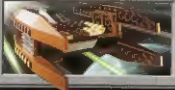

LIGHTSABER DUEL

Racing in on his Sith speeder, Darth Maul confronts Jedi Master Qui-Gon Jinn. The battle between good and evil begins. Was Qui-Gon not his match?

7111 DROID FIGHTER

To defend their control ship, Trade Federation droid fighters engage Naboo fighters in blazing dogfights. The wings on the droid fighter quickly change from cruising position to attack mode.

WITH ITS WINGS OPEN AND A FLASH OF ITS HEAD, A DROID FIGHTER CHANGES INTO A BATTLE DROID.

ANAKIN'S PODRACER

7131

Anakin Skywalker loves to build, and he makes his own Podracer. It takes quick reflexes and strong nerves to pilot a Podracer.

With your help, can Anakin Skywalker win the race of his life?

ANAKIN'S NEW PODRACER IS A RACING HOT CHICKEN! AN ANAKIN!

SITH INFILTRATOR

7151

This stealth ship carries the mysterious and sinister Sith Lord, Darth Maul. Open the rear hatch and out flies Darth Maul on his Sith speeder.

The sneaky infiltrator can drop 2 Sith probe droids for super spying. Darth Maul shows his fighters in the boat of the ship.

THE SITH INFILTRATOR IS A RACING HOT CHICKEN! AN ANAKIN!

Looking for speed?

Design your cars to be aerodynamic!

When car designers are working on a new car, they pay a lot of attention to aerodynamics: they design the car so that its wind resistance is as low as possible. Why? Partly because the resulting vehicle will require less fuel to cover a given distance and so too of that, it will go faster. When it comes to speed, the only way to make this is to reduce wind resistance.

Good for your next birthday: here are a few tips on how to make your LEGO cars aerodynamic.

LEGO cars will lose wind resistance the more they are streamlined.

LEGO cars will lose wind resistance the more they are streamlined. That also means less wind resistance.

A sloping front also improves the aerodynamics.

Building Contest

The Adventurers are trapped in the deep Amazon swamp. They need you to build them a hydrofoil fast to get them out of the swamp and stop the bad guys from stealing the Sun Disc. The hydrofoil should be able to travel both on land and in water, and has two huge propellers at the back of the vehicle to move forward. It too needs a lot of special functions to help the

Adventurers to fight off strange animals that emerge from the swarm.

Name your hydrofell and send in a photograph of yourself and your vehicle to the following address by the 20th July 1999 to qualify for the contest.

Use your eyes

It's quite an ordinary day at Grand Central Station. This is because it is always a mighty busy place where people rush in and out to catch a train, a bus or a taxi. But can you tell just how many people are in the picture? You REALLY have to use your eyes because the ones who are half hidden or in a car also count. We can reveal that the correct number is **one of these three:**
